

TECHNICAL DATA

ITEM: Soft Puff (Metallic)

PRODUCT DESCRIPTION	STRUCTURE			
METALLIO DII DIIEE aariaa ia thamaalla haat too aafan aastaliia fail alii		Hotmelt		
METALLIC PU PUFF-series is thermally heat transfer metallic foil skin with polyester hotmelt adhesive.		METALLIC PU PUFF		
		Carrier Film(Protective film)		

	TECHNICAL DATA					
No.	Classification	Туре	Unit	Universal	Method	
1	Total Thickness	METALLIC PU PUFF		272±10

STORAGE	Store at room temperature (temperature : $20 \pm 5^{\circ}$ C, humidity : $35 \pm 15\%$) and avoid exposure to direct sunlight.		
CUTTING NOTES	You should always test cut prior to any production run. Hotmelt layer seperation may occur depending on cutting blade condition and working conditions.		
WEEDING NOTES	It is necessary to pay attention to the operator when removing the pattern after confirming the cutting condition.		
PRESS & PEEL OFF	Use of test condition is recommended1st press (150°C, 5-10sec, 45psi) - COOL PEEL -2nd press after peel off carrier. (150°C, 10-15sec, 45psi)		
WASHING NOTES	Do be careful of damage due to washing conditions, and laundry products.
